

## 5mm Impact Foam

### **HARD SURFACE FLOORS**

(Flat areas - eg Kitchens, Family , Dining rooms)

#### ***Flat Area Foam System***

Lay 5mm foam to concrete slab. Place 9mm cement sheeting directly over foam leaving a 5mm strip around the edge of the walls. No adhesive required. Use resilient adhesives to adhere floor coverings such as tiles, or parquetry.

#### **Field test result**

**$L'nT,w: = 51, L'nT,w+C1 = 53, FIIC 54.$**
